

How We Will Do It

- Step 1: Rural Oregonians collect signatures to put a measure on their county ballot, or they convince county commissioners to put a question on that ballot.
- Step 2: Counties vote, to prove to state legislators that the counties want to join Idaho.
8 counties had voted in favor by November 2021!
- Step 3: Government of Idaho does analysis and holds hearings.
Our first hearing was April 12, 2021. Idahoans polled strongly in favor, in October 2021!
- Step 4: Citizens convince one state legislature to negotiate with the other state legislature to ratify a compact.
- Step 5: Eastern and southern Oregon votes as a whole on approving or disapproving the compact
- Step 6: Congress approves

Idaho can provide a safe future for our children and our community. Do you trust politicians in Salem to do that?

greateridaho.org

Citizens for Greater Idaho

PO Box 1073, La Pine, OR 97739

We need volunteers & donors like you to help move the Oregon/Idaho border

Visit greateridaho.org to get on our email list, learn more, donate, buy merchandise, contact us, learn how to help, get a petition, check the status of your county petition, or find events in your area.

We are a grassroots movement. We need to unite our neighbors around the idea of moving the border so that we can convince state legislators to stop holding our counties captive.

Introduce us to major donors so that we can afford to reach voters in our next campaign.

If you want to help, visit greateridaho.org

Oregon Counties Belong In Idaho

Move Oregon's Border for a...

GREATER IDAHO

Better Together

- ✓ American values and freedoms
- ✓ Lower overall taxes
- ✓ Less unemployment and cost of living
- ✓ No arsonists or rioters set free
- ✓ Less regulation and interference

<<< FAQ >>>

Can eastern or southern Oregon have a voice in state decisions without moving the border?

No. The ruling party in the Oregon Legislature doesn't have a single representative from a rural district or from eastern or southern Oregon, except one Ashland representative. But our reps would be in the ruling party in Idaho, where our concerns and needs would be heard.

Will the Oregon Legislature let our counties go?

At greateridaho.org we listed reasons the Oregon Legislature should want to release "low-income, Trump-voting" counties.

Did anyone ask Idaho? Yes, the governor welcomes the idea, as well as the heads of the Idaho Senate and House.

Why not make a new state? We don't think the Oregon Legislature would let us have our own state because that would add Republicans to the US Senate.

Why not just give each county a senator so Republicans can win again? Oregon used to do that, but the Supreme Court forced Oregon to change to one man, one vote. The Oregon Legislature would never vote to reverse this anyway.

What about minimum wage? Only 7% of Oregonian and 2% of Idahoan workers earn minimum wage. Everyone else's wages are set by supply and demand in the labor market, not by law. A high minimum wage closes businesses in rural areas. Counties can increase their minimum wage if they want to do so.

What about licenses? We expect professional & driver's licenses to be grandfathered in.

WHY SHOULD COUNTIES WANT TO BECOME A PART OF IDAHO?

The Oregon/Washington border was relocated in 1958. Now it's time to relocate the Oregon/Idaho border.

Oregon is ruled by politicians with Portland values and priorities. They don't understand how we make a living. Their decisions damage industries like timber, mining, trucking & farming. We don't want a handout. We want our communities to thrive.

Eastern and southern Oregon are in an abusive relationship with Willamette Valley. Valley politicians refuse to protect citizens from criminals and illegals, and then infringe your right to defend your family. The public school curriculum teaches the next generation to hate Americans and Americanism. Your tax money goes to things that violate your conscience. It's time to end this abusive relationship.

Voting patterns prove that east, central, & southern Oregon do not belong in Oregon. It's bigger than politics: it's our culture. These areas gave 2 votes to Trump for every Hillary or Biden vote, just like Idaho. But northwestern Oregon has 79% of Oregon's voters. Their state legislators ignore ours, because their majority doesn't need the votes of rural state legislators to pass laws, and their state legislators are of a different party.

IDAHO COMPARED TO 50 STATES:

	Oregon	Idaho
Lowest Tax Burden	33 rd	8 th
Lowest Cost of Living	48 th	18 th
Lowest Unemployment Rate	27 th	4 th
Regulatory Freedom	46 th	4 th
School Test Scores	33 rd	11 th

Fossil Fuels being phased out	😞	
Forests managed to avoid fires		😊
Trustworthy elections		😊

Lower Tax Rates

Idaho is the state with the 8th smallest tax burden, and Oregon ranks 33rd, according to <https://taxfoundation.org/tax-freedom-day-2019> Combining all taxes together, including Idaho's sales tax and Oregon's hidden sales taxes, the average Idahoan pays \$1722 less in taxes per year than the average Oregonian. That's averaging together every adult or child. Oregon tax rates will continue to go up due to a lack of willingness to control spending
